FIG. 1A  
PRIOR ART

FIG. 1 is a perspective view of a circular lead frame assembly. The assembly consists of a circular lead frame (21) with a central circular opening. A series of rectangular terminals (22) are mounted on the inner surface of the frame. Some terminals are connected to a terminal connector (23) on the outer edge of the frame. The frame is shown in a cross-section, revealing multiple layers.

FIG. 1 is a perspective view of a circular resin substrate 27. A ring of terminals 22 is formed on the top surface of the substrate. Some of the terminals 22 are connected to a terminal connector 23. The terminals are labeled 22, and the connector is labeled 23. The resin is labeled 27.
